HealtheMed™ | Clinic@Home™

BUILDING CLIENT STABILITY AND INDEPENDENCE EVERY DAY

Daily support for clients with complex needs and barriers to care across 35+ counties.

- ∞ — *Proactive client monitoring*
- 80% — *80%+ appointment attendance*
- 50% — *Up to 50% reduction in ER admissions*
- 3+ — *Daily client engagements*
- *17% improvement in medication adherence*
- *40% of clients with hypertension improve at least one stage*

OUR MODEL: CLINIC@HOME

- Daily engagement and remote monitoring flags social and health changes before concerns arise.
- Regular updates on health goals, medication adherence, and social needs detection.
- Telehealth check-ins with nurses, providers, and therapists between your visits.
- Medication and appointment reminders built into daily routines to improve adherence.
- Simplified billing per case manager feedback: just S5165 & S5110/S5115—no T2029.

ENROLLMENT GUIDELINES

Clinic@Home is often a good fit for those with any of the following:

- Multiple chronic conditions
- Functional or mobility limitations
- Recent ER visits or hospitalizations
- Barriers to in-person care
- Desire to live independently in the community
- Need for ongoing health monitoring & support

HOW REFERRALS WORK

1. Identify a client who may benefit from additional in-home support
2. Submit a referral via phone or at healthemed.com/refer with client consent
3. HealtheMed works alongside existing care teams to begin engagement & support
